Join-In for Grid 3

Accessible Disney+

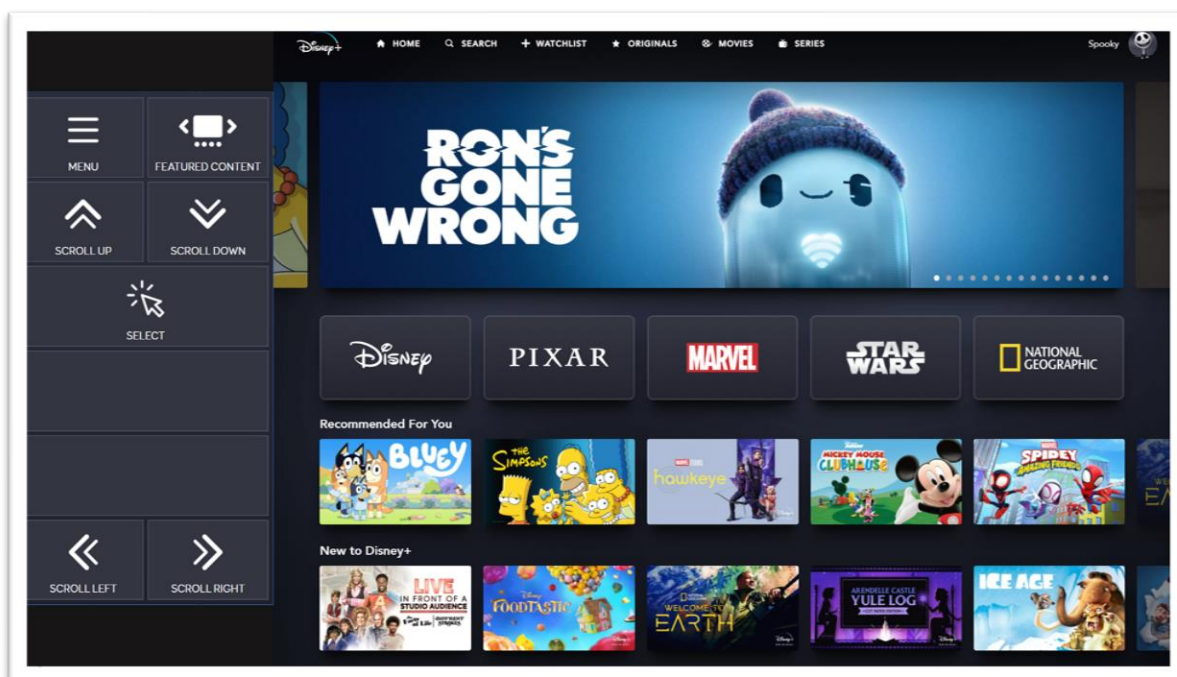

Disney + Login page

Getting Started

- Requirements – to use Join-In Disney + you need a Disney + account. Make sure you have your Disney + login and password available.
- Login – After selecting Join-In Disney + from Grid Explorer, follow the sequence – **LOGIN AND INFO** => **LOGIN** => **ENTER EMAIL** => enter your Disney + account email => **CONTINUE / LOGIN** => **ENTER PASSWORD** => enter your Disney + account password => **CONTINUE / LOGIN**.
- Once you are logged in, click the **SELECT PROFILE** cell. This will take you to the profiles grid. Select the **LEFT** or **RIGHT** cells, to switch between profiles. When you are on the desired profile, click **SELECT CURRENT PROFILE**.
- In the profiles grid you can also add or edit profiles – change the profile picture, language etc.
- You are now ready to use Accessible Disney +.

Disney + Home Page for Eye-Gaze, Mouse Dwell and Touch users

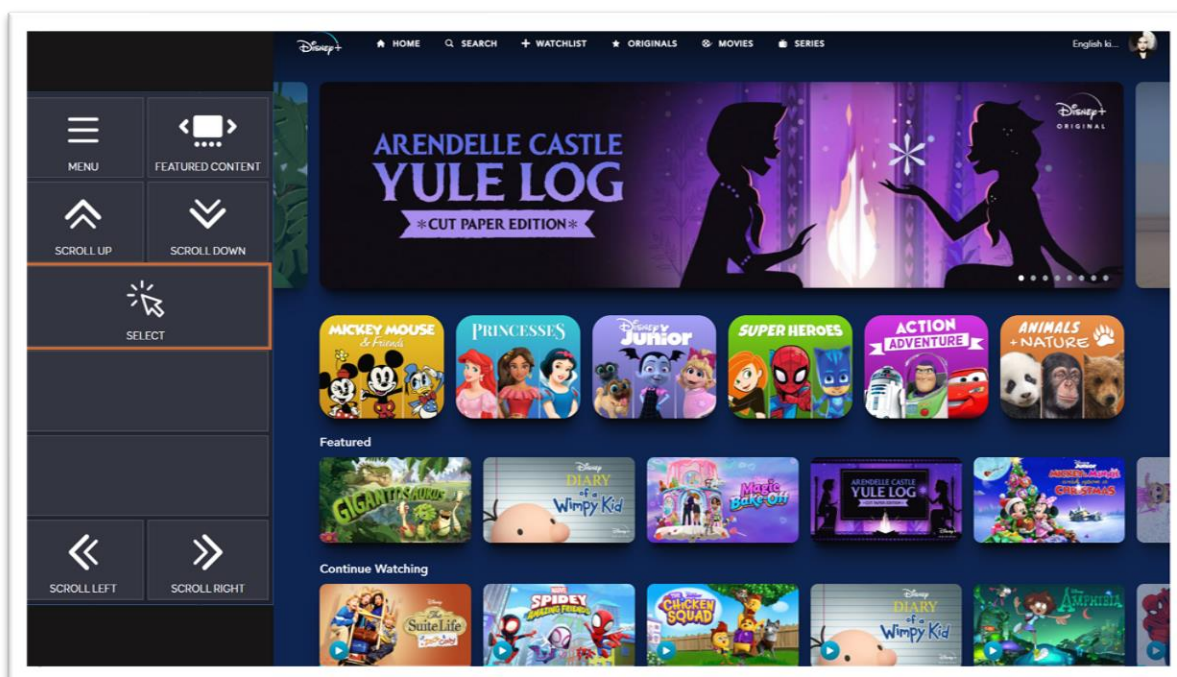

Home Page

- **MENU** – go to Disney + menu.
- **FEATURED CONTENT** - click this cell if you want to browse the featured content on the top of the screen or select one of the collections (Disney, Pixar...).
- **SCROLL UP, SCROLL DOWN** – scroll the screen up or down.
- **SCROLL LEFT, SCROLL RIGHT** - scroll the screen left or right.
- **SELECT** – clicking this cell will make the movies and series selectable using your access method.

Notes:

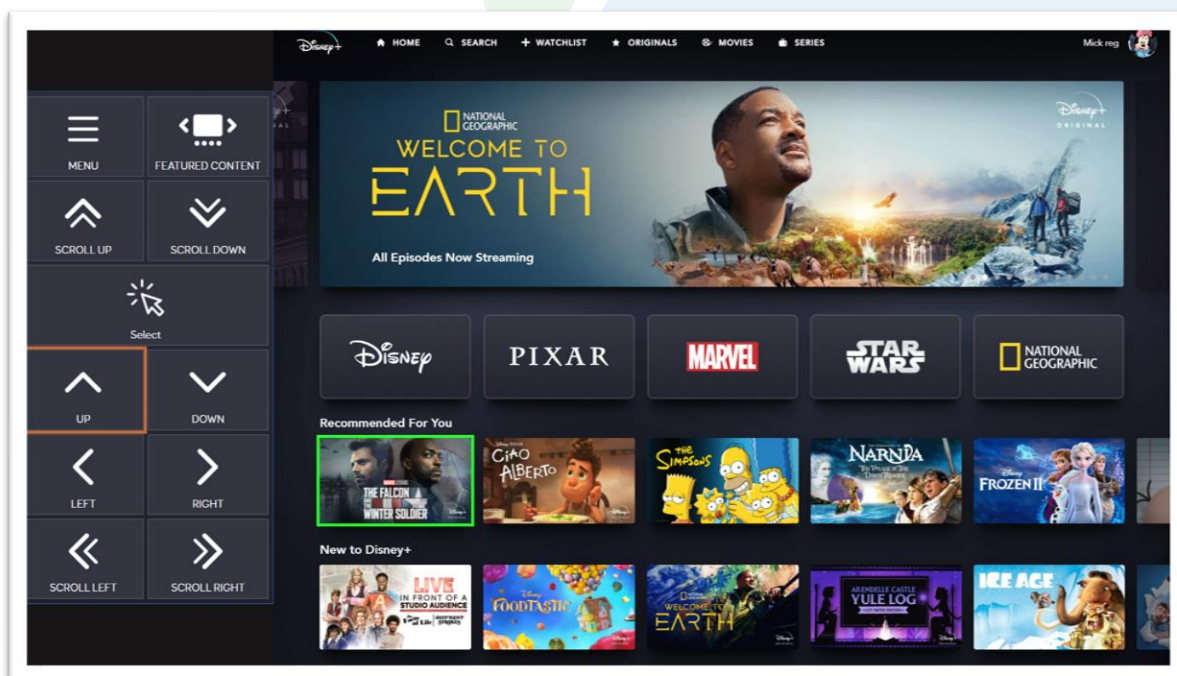

- if you are Switches as your access method, your grid will include arrows that will allow you to navigate between the different movie and series.
- If you have selected kids' profile, the collections on the Disney + home screen will be different, but navigation and selection will work the same.

Home Page for Kids' Profiles

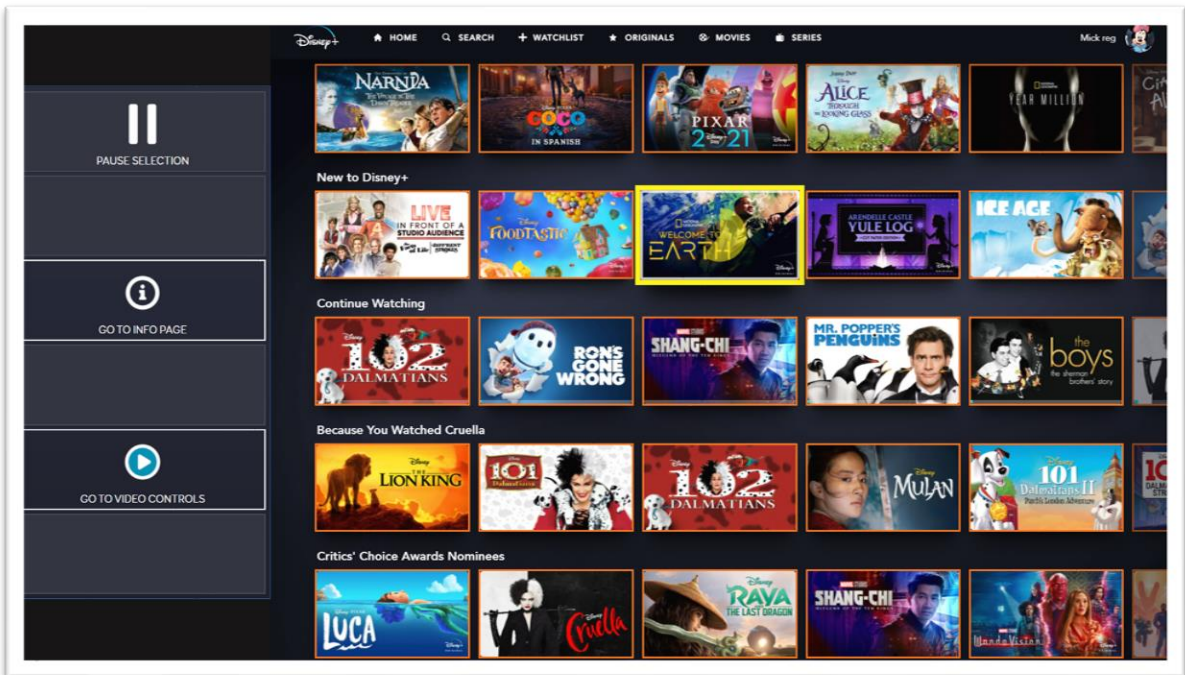

Kids' profile Home Page - Disney, Pixar, Marvel... are replaced by Mickey Mouse, Princesses, Disney Junior.... Everything else stays the same.

Home Page for Switch Users

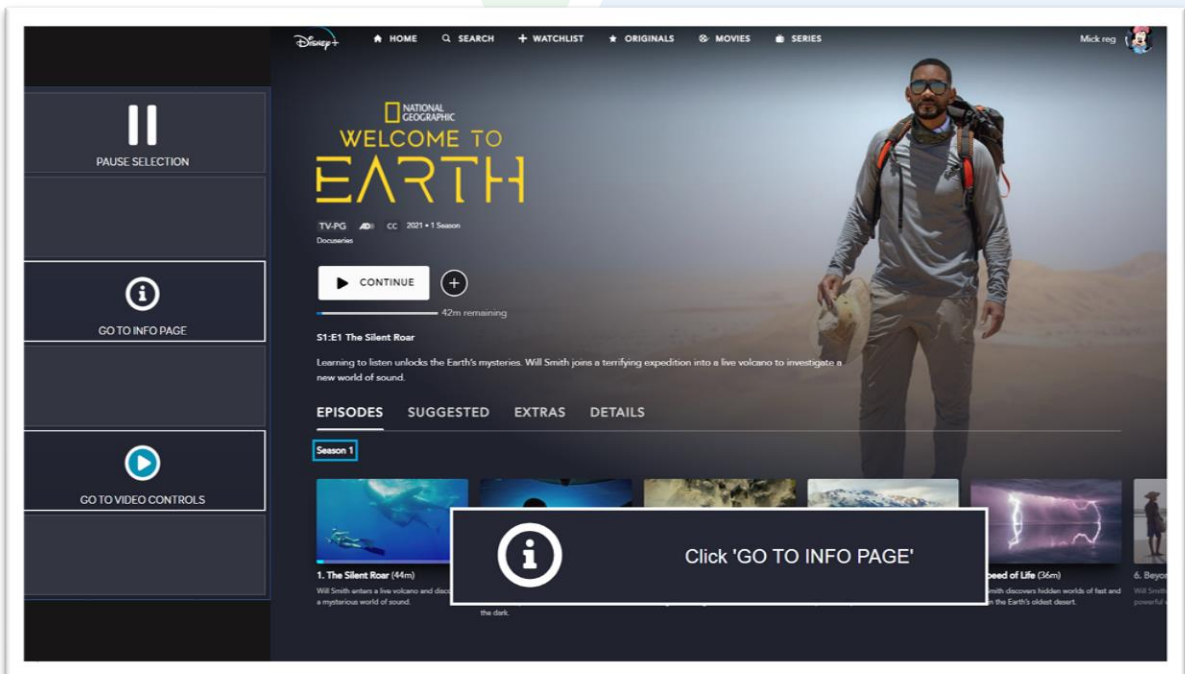

Navigation is done using the *UP*, *DOWN*, *LEFT* and *RIGHT* arrows

The Home Page in "SELECT" Mode

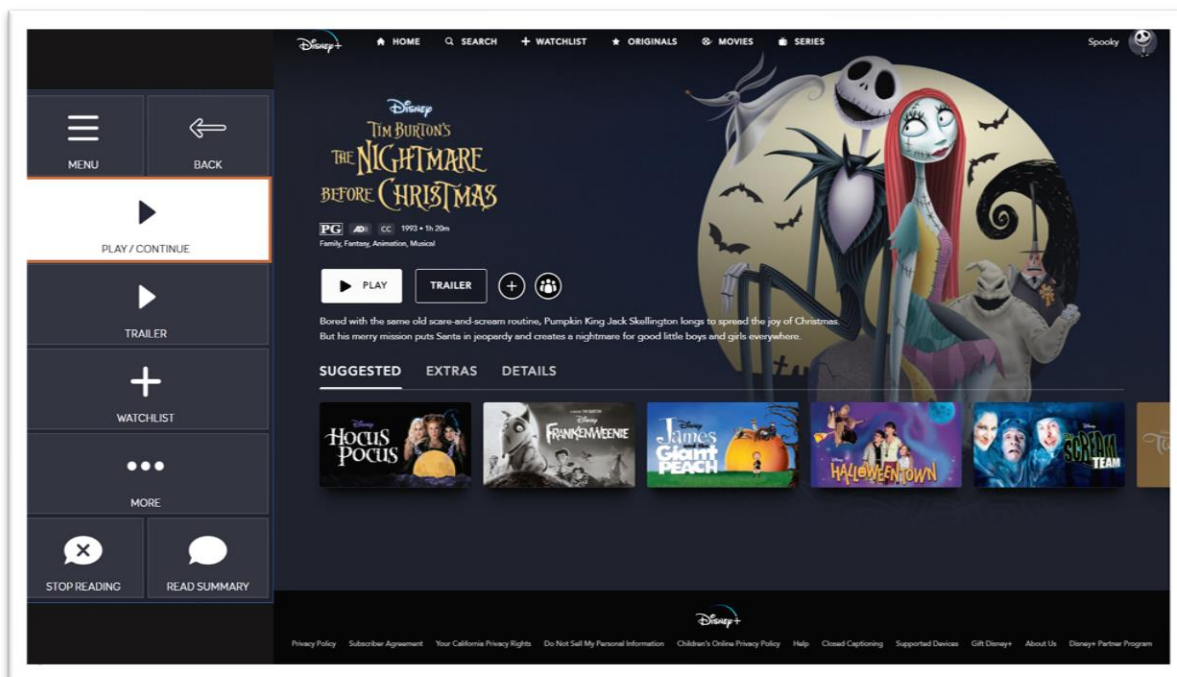

The Home Page after clicking the select cell. The items that are highlighted can be selected using the user access method.

Selecting and playing Movie / Series

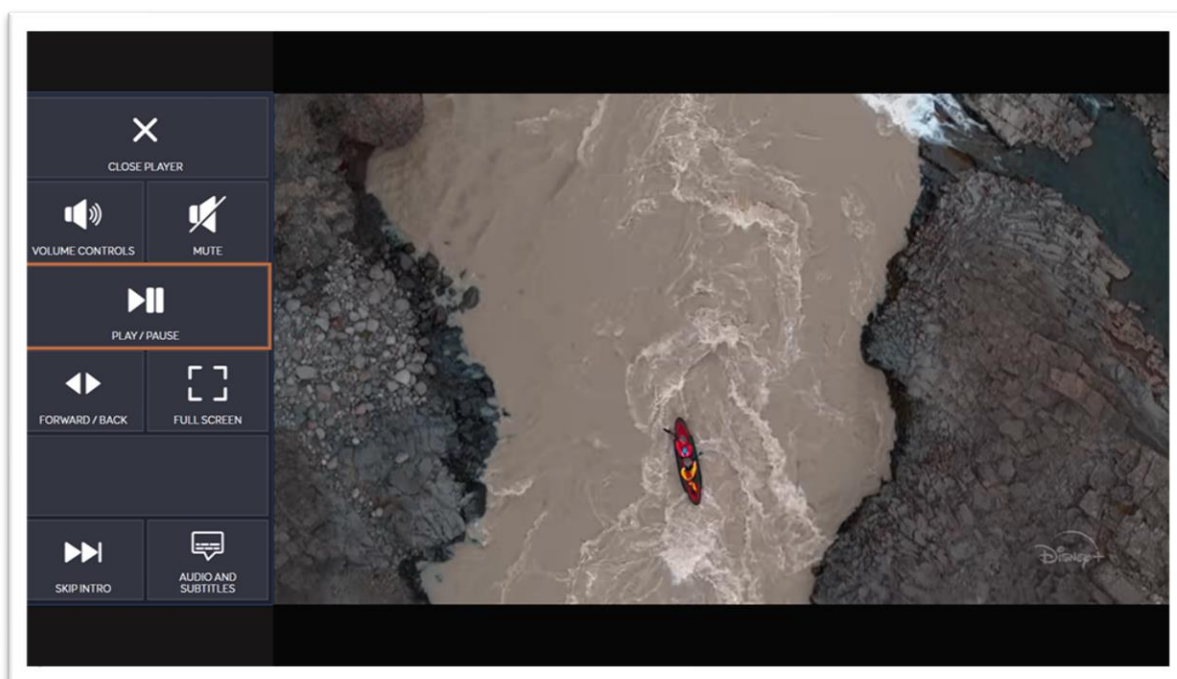

After the selected Movie / series opens, the user gets a message, instructing him which cell to select. After selecting it, the movie / series can be played

Disney + Info Pag

Info Page

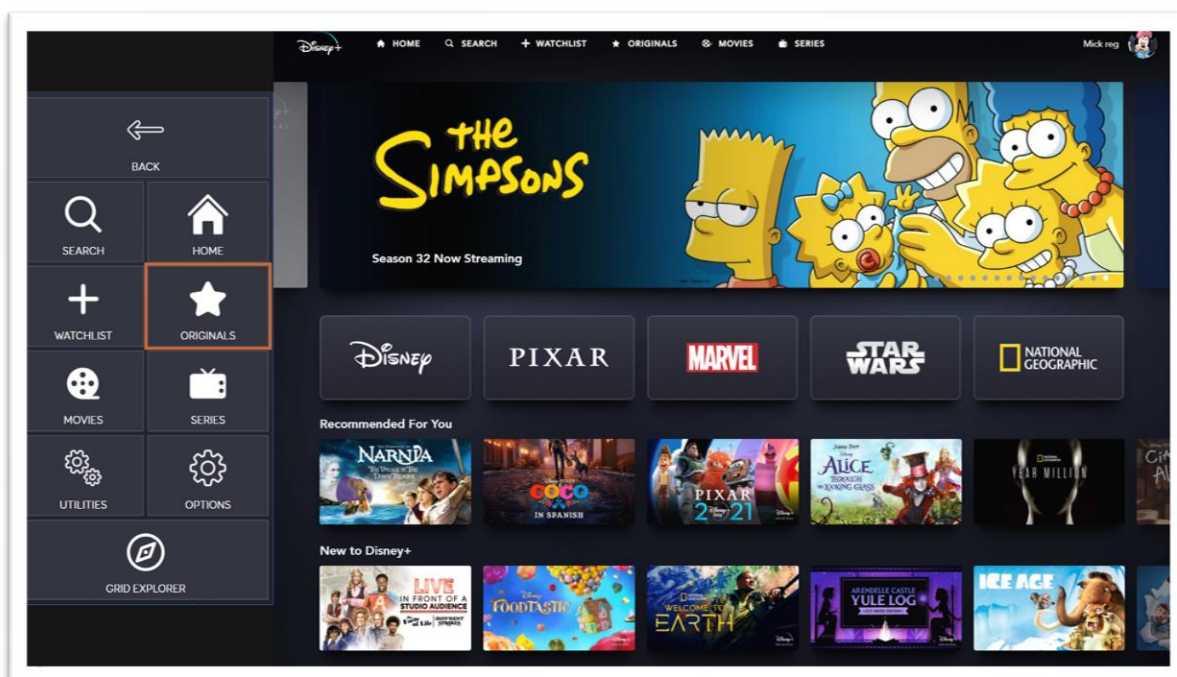

- **MENU** – go to Disney + menu.
- **PLAY / CONTINUE** – go to the Video Player, to play, or continue playing, the current video.
- **Trailer**– play the trailer of the selected item, if a trailer is available. If not, you will get a message, and you will be asked to close the Video Player.
- **WATCHLIST** – add this item to your watchlist.
- **MORE** – browse episodes (for a series), browse the suggested items, watch the extras (if available), or view more details regarding the current item.
- **READ SUMMARY / STOP READING** – after selecting the **READ SUMMARY** cell, Grid 3 will read the summary of the current item aloud. **STOP READING** will cause Grid 3 to stop reading the summary.

Disney + Video Player

Video Player

- **CLOSE PLAYER** – stop the video you are watching and return to browsing.
- **VOLUME CONTROLS** – go to a page with volume controls.
- **MUTE** – mute or unmute the video.
- **PLAY / PAUSE** – start or stop the video playing.
- **FORWARD / BACK** – jump forward and back within the video you are watching, or use bookmarks to go to a specific point in the video.
- **FULL SCREEN**– view your video at full size with Join-In [Full Screen Video Player](#).
- **SKIP INTRO** – skip the intro of the series and go directly to the episode you want to watch.
- **AUDIO AND SUBTITLES** – adjust the audio and subtitle languages and settings.

Disney + Menu Page

Menu
