Join-In for Grid 3

Facebook

Getting Started

- **Requirements** – to use Join-In Facebook you need a Facebook account. Make sure you have your login and password available.
- **Login** – After selecting **Join-In Facebook** from your Grid 3 Grid Explorer, follow the sequence – **Login and Info** => **Log In** => **Email or Phone** => enter your Facebook account email or phone number => **Password** => enter your Facebook account password => **Log In**. You can also reach the log in and log out controls via **Menu** => **Options**.
- If you already logged in on this device, your previous logins will appear. You can click **Recent Logins** to login again with one of them.
- You are now logged into your Facebook account. Select **Continue to Facebook** to start using the app.
- Join-In Gridsets are available in different languages and optimized for use with different input devices. For most apps there is also a regular 'Full' version and a 'Lite' version with larger buttons and almost identical functionality. Please refer to the Join-In for Grid 3 [Getting Started](#) guide for information on how to download the Gridsets that are best for you.

Home

- **Menu** – go to Facebook menu ([Page 4](#)).
- **Post Up / Post Down** – move the blue border frame up or down to view the post immediately above or below the currently selected post. If no post is selected, select the first post.
- **Click Post** – if the post contains media you can interact with, clicking here will show a popup **Redirect Message** telling you how to activate the content of the post. See [Page 7](#) for more details.
- **Like** – like the selected post.
- **Emotion** – react to the selected post with an emoji.
- **Read Post** – read the content of the selected post aloud.
- **Full Text** – open the full text of the selected post.
- **Comment** – respond to the selected post by writing a comment, sending a gif image, sending a sticker, sending an emoji, sending a picture or a video.
- **Comments** – go to the selected post comments, to browse, open or respond.
- **More Comments** – open more comments to the selected post.
- **Post Options** – more options for interacting with the selected post. This is also where you should click if you want to write your own new post.

Menu

- **Home Page (Feed)** – go to your Facebook Home Page ([Page 3](#)).
- **Find Friends** – review friend requests from other people. Review Facebook suggestions for new friends.
- **Search** – search for posts, people, pages and groups ([Page 5](#)).
- **Notifications** – open and review your notifications.
- **My Groups** – browse and visit the groups you are a member of ([Page 6](#)).
- **My Profile** – go to your profile page.
- **My Friends** – browse your friends and visit their pages.
- **Utilities** – **Recover** or reopen Facebook, **Block Touch** or **Allow Touch** access, close windows you do not need, close popup messages, zoom in or zoom out...
- **Options** – change the computer volume, toggle Facebook dark mode, toggle text enlargement and adjust text size, open the [Join-In Settings](#) app, log in and log out of Facebook.
- **Exit** – exit Join-In Facebook and return to Grid 3 Grid Explorer.

Search Results

- **Menu** – go to Accessible Facebook Menu.
- **Posts, People, Pages, Groups** – filters the search results, based on the selected type – posts, people, pages or groups.
- **Up** and **Down arrows** – browse the search results up or down.
- **View [...]** – click this button to open the selected search result. The caption on the button, and the page it takes you to change based on the current filter – posts, people, pages or groups.
- **Read Details** – hear the details of the selected search result read aloud.

Groups

- **Menu** – go to Join-In Facebook menu.
- **Group Up / Down** – move up or down your list of groups.
- **Post Up / Down** – click up or down to scroll the posts in the currently selected group.
- **Go to Group Controls** – get the full range of post interaction controls that are available when you scroll posts on your home page ([Page 3](#)).
- **Click Post** – if the post contains media you can interact with, clicking here will show a popup **Redirect Message** telling you how to activate the content of the post. See [Page 7](#) for more details.
- **Browse Groups** – opens a popup table to display all the groups you are a member of. You will be redirected to a menu toolbar to help you choose one based on your accessibility settings.
- The buttons you see depend on which control method your Gridset is optimized for; **Switch**, **Eye Gaze**, **Touch** or **Mouse Dwell**.
- Consult the [Join-In Settings](#) training cards for more information on how different versions of Join-In Gridsets work in situations like this.

Click Post

- When you scroll through posts in different parts of Facebook, the **Click Post** button allows you to interact with media or links in the post.
- To be able to interact with media and links in a post, you need to have the appropriate buttons available on your Gridset toolbar. To help you get to the right place, a **Redirect Message** will appear as a popup at the bottom of the screen when you use the click post button. Follow the instructions in the message to click the correct **Redirect Button** in the Gridset.
- Join-In Facebook allows you to activate and interact with Photos, Videos and Galleries embedded within Facebook, as well as opening external links to YouTube videos and other web pages.
- You can interact with video posts using the **Video Player** controls - see [Page 8](#).

Video Player

- **Exit** – close the video post.
- **Play / Pause** – play or pause the current video.
- **Forward / Back** – go to a page allowing you to jump forward or backward in the video being played.
- **Player Volume** – go to a page with video volume controls.
- **Full Screen** – view your video at full size with Join-In [Full Screen Video Player](#).
- **Like** – like the video you are watching.
- **Previous / Next Video** – scroll up and down the up next video list and choose one to watch by clicking **Select Video**.
- **Comments View** – stay with the same video and see a different view showing the comments instead of the up next videos. You can return to this first page by clicking **Next Videos View**.
